

Left: White oak + chestnut leather
 Right: Walnut + black leather, maple + tan leather

CAPSULE TABLE LAMP

The Capsule table lamp combines minimalist forms with richly textured natural materials. Thick English Bridle leather wraps the lower portion of the turned wood body, contrasting with the oiled wood exposed in the top portion. Satin-finish brass hardware and a white linen shade complete the design.

The lamp body is available in any combination of three woods (white oak, walnut, maple) and three leather colours (tan, chestnut, black)

The single-turn socket will accept a standard medium-base bulb (8 to 10W LED suggested).
